Project Name: Contact Book

Description:

-This project is a simple contact book application that allows users to create, update, and delete contact information. The application is written in Python and uses the CSV file format to store contact information.

Features:

- Create new contact information
- Update existing contact information
- Delete contact information
- Search for contact information
- View all contact information

Usage:

-To use the contact book application, follow these steps:

1. Open the terminal and navigate to the directory where the application is located.
2. Run the following command to start the application:

Code snippet

```
python main.py
```

3. The application will prompt you to select a method to perform.
4. Select the method you want to perform and follow the instructions on the screen.

To create new contact information:

1. Select the "Create Data" method.
2. Enter the contact information for the new contact.
3. Click on the "Submit" button.

To update existing contact information:

1. Select the "Update Data" method.
2. Enter the email address of the contact you want to update.
3. Enter the new contact information.
4. Click on the "Update" button.

To delete contact information:

1. Select the "Delete Data" method.
2. Enter the email address of the contact you want to delete.
3. Click on the "Delete" button.

To search for contact information:

1. Select the "Search Data" method.
2. Enter the keyword you want to search for.
3. Click on the "Search" button.

To view all contact information:

1. Select the "View Data" method.
2. Click on the "View" button.

Exiting the application:

-To exit the application, click on the "Exit" button.

Troubleshooting:

-If you encounter any problems while using the application, please refer to the following troubleshooting tips:

- Make sure that you have Python installed on your computer.
- Make sure that the contact book application is located in a directory that is in your PATH environment variable.
- If you are still having problems, please contact the author of the application for assistance.
